

Conservation Commission Goals

- Form partnerships with other local, state and federal organizations to help increase the mission.
- Increase public awareness of conservation issues and solutions.
- Contribute technical assistance to landowners and land users and public officials in water and forestry use, conservation and rural development.
- Educate citizens about the town's natural resources, so that they will better conserve, appreciate and utilize these natural resources.
- Provide information on land preservation programs such as Vermont Land Trust, and Use Value Appraisal.
- Acquire and/or preserve property deemed valuable to the town of Georgia.
- Engage in land management and trail maintenance of town property.
- Establish and review enforcement plans for resource preservation.
