

Vermont funding for wastewater repairs

News Release Date

08-31-2023

TIMELINE FOR FUNDING TO REPAIR OR REPLACE ON-SITE WATER OR WASTEWATER SYSTEMS

Vermont Agency of Natural Resources (ANR)
Healthy Homes Program

The State of Vermont is providing American Rescue Plan Act funding to low- and moderate-income homeowners to repair or replace failed or inadequate on-site wells and/or septic systems. This funding will ensure Vermonters have safe, reliable drinking water and adequate wastewater disposal. The funding process involves multiple steps:

1.

Submitting Pre-Qualification Applications

Interested homeowners can apply online during an open application period. Not able to apply online? Call the ANR Healthy Homes Program at 802-828-0141 or 1-877-344-0354 (toll-free) to apply over the phone.

The ANR Healthy Homes Program selects priority projects and contacts the applicants with next steps.

2.

Prioritizing Applications

3.

Submitting Applications

The ANR Healthy Homes Program invites applicants with prioritized projects to submit an application to confirm their eligibility. The Program reviews the information reported on the applications through tax documents, signed forms, and site visits.

The ANR Healthy Homes Program issues awards to applicants once their applications have been verified.

4.

Issuing Awards

5.

Repairing or Replacing Systems

Awardees hire a contractor of their choice to complete the project and the State issues payment for the work.
