

Georgia First Response
Regular Business Meeting
May 18, 2020

Location:
Virtual Meeting via Zoom

Present: 8 Excused: 0 Absent: 4

Meeting called to order by Andrew Dunsmore at 7:04pm.

Old Business

- Andrew asked if anyone is having issues with the new key fob lock on the EMS office door.
- We have a fit test kit at the station for those who have not yet been fit tested this year. There are paper bags in the station by Keith's locker if you want to reuse a mask that has not been soiled.
- ID's are on the desk in the office.
- Craig checked on gowns, but they are still on backorder for the foreseeable future. We do now have some 3XL Tyvek suits if the XL suits we had do not fit.
- Craig is working on another supply order. Let him know if there is anything we need. Discussed ordering

New Business

- Dan Batsie attended to announce that Georgia First Response was awarded the Vermont First Response Agency of the year and to offer his congratulations and thanks.
- New 2020 state EMS protocols have been released. There are trainings on CentreLearn that need to be completed by everyone before we can go live as an agency. We would like to go live by July 1st. The new stroke protocol requires a practical training.
- Discussed modified NREMT recertification qualifications criteria.
- Discussed some communications issues. Currently have difficulty receiving other responders.

Meeting adjourned at 7:44pm.

Select Board Concerns

- None
